WASHINGTON JOCKEY CLUB OFFICIALS IN COURT.

RESULT OF THE ACTION AGAINST THEM IN DOUBT -THE USUAL NUMBER OF SURPRISES

AT BENNINGS.

INV TELEGRAPH TO THE TRIBUNE. Washington, Nov. 20.—After numerous postponements the case against the Washington Jockey Club was opened to-day, and the result is still in doubt, and is likely to be for several days. When the case was called this morning one of the con sel for the defence was detained, and an adjournment until 1 o'clock was ordered. This, of course meant that the officials of the club could not get to the track until late, and temporary appointments were made, C. H. Pettingill officiating as starter and P. J. Dwyer and F. R. M. Birckhead as stewards. A number of the members of the Metropolitan Turf Association were also detained in court, and with a pouring rain to add to the gloom and chaos no regrets were heard when the

omeward journey was begun. The racing was decidedly ordinary, with the regu letion number of surprises. Ruby Lips, winner of the opening race, was first of the surprises. She was beaten off the last time she ran. Yet to-day she made an exhibition of her field, winning in a romp, with Beau Ideal second and Nigger Baby McCue had the mount to-day. Clawson rode her when she was beaten. Sparrow Wing, a 2-to-5 chance, captured the second race. She proved to be pounds the best of her field, and won in a romp. Coquina, an 80-to-1 chance, was second and Lella Smith, another of the outsiders, third. Mr. Stoffel's victory in the hurdle race had a decidedly unhealthy look. He is a green one over fences, yet was backed with great confidence, and after lead-ing all the way won by half a length from Squan, with Rifler a poor third. Marshall, the favorite, fell at the first jump. Eastertide was graduated from the maiden class in the fourth race. Fair Rebel set a pace for half a mile that rather upset calculations, but there was a general closing at the end, in which Eastertide won by a length the fifth race, and Trillo the closing race. Both were well played. Joseph Auerbach, attorney for the Jockey Club, is here assisting in the defence of the Bennings officials. He will do most of the cross-examining. The case will be continued to-merrow at 11 o'clock. Summarles:

GENERATED IN THE HUMAN BODY-THE RESULT OF IMPERFECT DIGESTION OF FOOD.

Every living thing, plant or soimal, contains within itself the germs of certain decay and death.

In the human body these germs of disease and death (called by scientists Ptomaines), are usually the result of imperfect digestion of food;

the result of indigestion or dyspensis.

The stomach, from abuse, weakness, does not premptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay) poisoning the blood, making it thin, weak, and lacking in red corpuscles; poisoning the brain, causing headaches

and pain in the eyes.

Bad digestion irritates the heart, causing palpitation and finally bringing on disease of this very important organ.

RANK OF THE TENNIS PLAYERS.

SENCE OF WRENN AND LARNED.

1898 were made at a meeting of the Ranking Comday morning. The committee appointed by Dr. Association, conclass of himself, M. D. Whitman, the National champion; E. P. Fischer, of New-York, and P. E. Presbrey, of the Longwood Cricket Club, of Boston. For the first year since 1891 R. D. Wrenn, 1897

champion, and W. A. Larned are not among the players classified Both were with Roosevelt's National, Longwood, Middle States and New-York State championships, and whose form at Newport, except in his match with C. R. Budlong clearly showed him to be in a class by himself. He is now considered in the same grade of American players as Wrenn and Larned.

The form of the players just below Whitman has been most inconsistent, and the paces assigned were decided on only after a thorough examination in September, his season's work was slightly better than Bond's, and he got second place, with Bond just below him. Dwight Davis, of Harvard, whose meteoric ascent surprised the tennis world, is placed fourth, his defeats in the early part of the year preventing him from getting a higher rank. C. R. Budlong and E. P. Fischer are placed next. Budlong getting the higher place because of his good form at Newport. Then follow G. L. Wrenn, ir., and R. D. Stevens, the latter an old-timer, whose career this year was not as successful as usual. After them come twenty-nine other players, who are ranked in classes up to fifteen and two-sixths. Whitmen being in the scratch class and the various classes being separated by sixths. The ranking in full follows:

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fall to digeat food properly, because they lack the proper quantity of digestive acids (actic and hydrochloric) and peptogenic products; the most sensible remedy in all cases of indigestion, is to take after each meal, one or two of Stuart's Dysneysia Tablets, because they supply in a pleasant harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dysneysia Tablets will cure every form of stomach trouble except cancer of the stomach.

They increase fiesh, insure pure blood, strong nerves, a bright eye and clear complexion, because all these result only from wholesome food well digested.

WINTER PLANS AT VARIOUS COURSES-BALTIMORE TOURNAMENT POSTPONED.

The list of New-York golf clubs that will enter the field next season is already assuming formidable proportions. One of the latest is the Tatnuck Country Club, which has been organized recently in Worcester, and which includes in its membership some of the best-known people of that city. Property has been secured, beautifully situated in the northwestern suburits, and a nine-hole course is to be laid out by next spring. Willie Campbell, the professional at the Franklin Park links in Beston, has the work in charge, and the sallent features of the course have already been mapped out. The membership is limited to 250 nctive and 50 non-resident members, and this number will soon be reached. The president of the club is Waldo Lincoln, and the vice-president Josiah H. Clark. The other officers are: Secretary, Frederick S. Pratt, treasurer, George M. Bassatt, Greens Committee, Dr. Frederick H. Baker, Charles S. Barton and Samuel E. Winslow. The list of New-York golf clubs that will enter

One of the interesting things about the present spread of golf is its popularity at clubs originally organized for the purpose of some other sport. The Lakeside Country Club, of Richmond, is now following the example of a number of others in being reorganized, with golf as its chief interest. The limit of membership, 300 has already been reached, and there is a large waiting list. The club is planning to join the United States Golf Association, and there is also talk of holding an open tournament some time this winter. If this latter project is carried out it will offer a pleasant attraction to Northern golfers, who are arranging their plans for a tour of the Southern links in South Carolina and Florida, Richard Leuri is the president of the new club. One of the interesting things about the present

The course at Atlantic City has received such The course at Atlantic City has received such enthusiastic support from the golfers of Philadelphia and other cities that nine more holes are being added, in order that its size may be commensurate with the demands made upon it. Though the club is supported to a large extent by visitors and non-resident members, a number of local players have been developed who can play a capital game, and the club's golf team has enjoyed considerable success during the last senson. The new holes will add much to the attractiveness of the links, and by text spring they should be in fair condition for play.

WORK OF REORGANIZATION BEGUN

RECRUITING FOR THE NEW 13TH REGIMENT STARTS UNDER MAJOR RUSSELL.

Major George D. Russell, who was chosen to organize the 13th Regiment, began the work of rerulting for the regiment at the armory yesterday afternoon. About three hundred members of the sell said he expected to have the necessary quota of men on the rolls by January 1, so that the regiment could be mustered into service again at that time. He said that ten companies would be formed, and as soon as each company had fifty men the companies would elect their own officers, and the officers would choose the colonel. He was asked if he would accept the colonelcy of the regiment, but he declined to answer.

A bowling alley and a gymnasium will be built in the armory.

APPELLATE DIVISION REVERSES THE DE-CISION IN THE CASE OF JANE

A. PORTER The Appellate Division of the Supreme Court has reversed the decision of the lower court in the matter of the appointment of a committee of the person of Jane A. Porter. The case will go back for hearing to the Supreme Court of Niagar County. Miss Porter was declared incompetent in 1886. Her property was valued at \$100,000. General Benjamin Flagier was appointed a committee of

her person and estate. Recently the actual care of Miss Porter was given to her cousin, Mrs. O'Connor, of Queens County An application was made for the appointment of a new committee, and to have the proceeding transferred to Nissara County. The motion was denied. Justice Cullen in his opinion says that Miss Porter is a legal resident of Niagara County, and that all proceedings brought here were yeld.

A WARSHIP TO BE SOLD AT ALCTION.

NAVAL CONSTRUCTION BOARD DECIDES TO DIS-POSE OF THE OLD MONITOR WYANDOTTE.

ordance with a decision reached at its session to last week refused to adopt double-turret monitors offered by four contractors. This old vessel, which constituted part of the defences of Boston last ummer when that city was so highly alarmed over demned by an inspection board which appraised for value at \$7,600, and after sixty days' advertising Militia, and was stationed at New-Haven, but or May 17 she started under her own steam to the defence of Boston, arriving there two days later and remaining until September 5, when she proreeded to League Island, making the voyage in four days. It has been found impossible to repair her-boilers and hull, and the construction experts agreed to-day that it would be useless to attempt

to repair her within the statutory limitations of pense.

The Wyandotte was built in 1862 by Miles Green-wood at Cincinnati, and cost nearly 550,600. It, a single turret projected by 15-tuch armof are mounted a couple of 15-tuch smooth-bore cannon, and as a secondary means of defence abe is equipped with two 12-pounder Hotchkiss revolving cannon. Her displacement is 2,100 tons, and she was driven at a speed of six knots by a "grass-hopper" engine of 526 horsepower actualing a single screw. Only the built and machinery will be offered for sale, the guns and other equipment being retained by the Navy.
